FUND SUMMARY

Investment Objective: The Persimmon Long/Short Fund seeks long-term capital appreciation.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and example below.**

Shareholder Fees (fees paid directly from your investment)	Class I
Maximum Sales Charge (Load) Imposed on purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (Load) (as a percentage of purchase price)	None
Redemption Fee (as a % of amount redeemed if held less than 60 days)	1.00%
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	1.25%
Distribution and/or Service (12b-1) Fees	None
Total Other Expenses	0.84%
Short Selling Dividend and Interest Expense	0.16%
Remaining Other Expenses	0.68%
Acquired Fund Fees and Expenses ⁽¹⁾	0.01%
Total Annual Fund Operating Expenses	2.10%

(1) Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies, including exchange traded funds. The operating expenses in this fee table will not correlate to the expense ratio in the Fund's financial highlights because the financial statements include only the direct operating expenses incurred by the Fund, not the indirect costs of investing in other investment companies.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

<u>Class</u>	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
I	\$213	\$658	\$1,129	\$2,431

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the fiscal year ended September 30, 2023, the Fund's portfolio turnover rate was 0% of the average value of its portfolio.

Principal Investment Strategies: In pursuing the Fund's investment objective, the Adviser uses three strategies: (i) selecting individual equity securities, (ii) hedging to mitigate the downside risk of equities during unfavorable markets, and (iii) seeking to minimize shareholders' tax liability in connection with the Fund's distribution of realized capital gains.

Equity Instruments

Under normal market conditions, the Fund pursues its investment objective by investing at least 60% of its net assets in U.S. exchange listed common stock, preferred stock and depository receipts ("Equity Instruments"). The Fund may invest in or have exposure to domestic and foreign companies of any market capitalization or sector. The Adviser primarily selects long equity positions from companies in the S&P 500 Index.

Hedging

When the Adviser believes it is warranted by unfavorable market conditions, the Adviser uses its dynamic hedging strategy model to seek to reduce the downside risks associated with the Fund's exposure to Equity Instruments. Exposure to the hedging strategy is gained through selling short exchange-traded funds.

The Fund expects to have net long exposure to equity markets. The Adviser uses the hedge strategy as an overlay to manage the Fund's net exposure.

Tax Management

The Adviser seeks to minimize shareholders' tax liability in connection with the Fund's distribution of realized capital gain by minimizing the net gains available for distribution. As part of its tax aware strategy, the Adviser seeks to sell any security that has breached a predetermined loss level. Thus, it seeks to accumulate capital losses to partially offset any realized capital gains. This strategy, commonly known as tax-loss harvesting, is combined with the equity portfolio with the objective of creating favorable after-tax returns. However, the Fund's portfolio may not contain any securities in a loss position. The Adviser may use an exchange-traded fund ("ETF") as a temporary substitute for an individual Equity Instrument or group of Equity Instruments.

Principal Investment Risks: *As with all mutual funds, there is a risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund's net asset value ("NAV") and performance.*

- **Equity Risk:** The NAV of the Fund will fluctuate based on changes in the value of the equity securities held by the Fund or underlying funds that invest in U.S. and/or foreign equity securities. Equity prices can fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions.
- **Foreign Investment Risk:** Foreign investing (including through American Depositary Receipts, European Depositary Receipts and Global Depositary Receipts) involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards. Investing in emerging markets imposes different or greater risks than those associated with foreign developed countries.
- **Hedging Risk:** Investing for hedging purposes or to increase the Fund's return may result in certain additional transaction costs that may reduce the Fund's performance. When used for hedging purposes, no assurance can be given that each derivative position will achieve a perfect correlation with the security against which it is being hedged.
- **Issuer-Specific Risk:** The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- **Large Cap Company Risk:** To the extent the Fund invests in large capitalization companies, the Fund may underperform funds that invest primarily in the stocks of lower quality, smaller capitalization companies during periods when the stocks of such companies are in favor.
- **Management Risk:** The Adviser's judgments about the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests (long or short) may prove to be incorrect and may not produce the desired results.
- **Market and Geopolitical Risk:** The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, climate change and climate-related events, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years may result in market volatility and may have long term effects on both the U.S. and global financial markets.

- **Model Risk:** Like any analysis, the Adviser's investment model carries a risk that the model used might be based on one or more incorrect assumptions. Rapidly changing and unforeseen market dynamics could also lead to a decrease in short term effectiveness of the Adviser's algorithmic model. No assurance can be given that the Fund will be successful under all or any market conditions.
- **Short Position Risk:** The Fund will incur a potentially unlimited loss as a result of a short position if the price of the short position instrument increases in value between the date of the short position sale and the date on which the Fund purchases an offsetting position.
- **Small and Medium Capitalization Risk:** The value of small or medium capitalization companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.
- **Tax Aware Investing Risk:** The Adviser's tax aware strategies may reduce shareholder taxable distributions but will not likely eliminate taxes. These strategies may require trade-offs that reduce pretax income. Managing the Fund to maximize after-tax returns may also potentially have a negative effect on the Fund's performance. Because tax consequences are considered in managing the Fund, the Fund's pre-tax performance may be lower than that of a similar fund that is not tax-managed.
- **Underlying Funds Risk:** Investment companies, including ETFs and mutual funds, are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, the cost of investing in the Fund will be higher than the cost of investing directly in investment companies and also may be higher than other mutual funds that invest directly in securities. Investment companies are subject to specific risks, depending on the nature of the fund.

Performance: The bar chart and performance table below show the variability of the Fund's returns over time, which is some indication of the risks of investing in the Fund. The bar chart shows performance of the Fund's Class I shares for each full calendar year since the Fund's inception. The performance table compares the performance of the Fund over time to the performance of a broad-based market index and a supplemental index. You should be aware that the Fund's past performance (before and after taxes) may not be an indication of how the Fund will perform in the future. Updated performance information is available at no cost by visiting www.persimmonfunds.com or by calling 1-855-233-8300.

Class I Performance Bar Chart For Calendar Years Ended December 31

Best Quarter:	12/31/2023	10.75%
Worst Quarter:	3/31/2020	(9.70)%

Performance Table
Average Annual Total Returns
(For periods ended December 31, 2023)

	One Year	Five Years	Ten Years
Class I shares			
Return before taxes	15.70%	6.34%	3.72%
Return after taxes on distributions	15.70%	6.28%	3.27%
Return after taxes on distributions and sale of Fund shares	9.30%	4.96%	2.84%
HFRX Equity Hedge Index⁽¹⁾⁽²⁾ (reflects no deduction for fees, expenses or taxes)	6.90%	6.09%	2.87%
S&P 500 Total Return Index⁽³⁾ (reflects no deduction for fees, expenses or taxes)	26.29%	15.69%	12.03%

- (1) The HFRX Equity Hedge Index is a broad-based index covering strategies that maintain positions both long and short in primarily equity and equity derivative securities. The index covers a wide variety of investment processes including both quantitative and fundamental techniques; strategies can be broadly diversified or narrowly focused on specific sectors and can range broadly in terms of levels of net exposure, leverage employed, holding period, concentrations of market capitalizations and valuation ranges of typical portfolios. The Persimmon Long Short Fund utilizes a systematic process to limit the net exposure of the strategy resulting in profile similar to that of the average Equity Hedge managers that typically maintain at least 50% exposure and may in some cases be substantially entirely invested in equities, both long and short. The HFRX Equity Hedge is a commonly used benchmark for alternative investments such as the Persimmon Long Short Fund.
- (2) HFRX Equity Hedge Index is a daily index of Long/Short Equity Hedge Fund Returns provided by Hedge Fund Research (hedgefundresearch.com). Index performance returns do not reflect any management fees, transaction costs or expenses. You cannot invest directly in an index.
- (3) The S&P 500 Total Return Index is an unmanaged composite of 500 large capitalization companies and includes the reinvestment of dividends. This index is widely used by professional investors as a performance benchmark for large-cap stocks. You cannot invest directly in an index.

After-tax returns were calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold shares of the Fund through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

Management of the Fund:

Adviser	Portfolio Manager	Title and Length of Service
Dakota Wealth Management, LLC	Greg Horn	Portfolio Manager of the Fund since inception
	Timothy Melly	Portfolio Manager of the Fund since June 2015

Purchase and Sale of Fund Shares: You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading. The minimum initial investment in the Fund is \$100,000. The minimum subsequent investment is \$100.

Tax Information: Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. However, these dividend and capital gain distributions may be taxable upon their eventual withdrawal from tax-deferred plans.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective:

The Fund seeks long-term capital appreciation. The Fund's investment objective may be changed by the Board of Trustees (the "Board") upon 60 days' written notice to shareholders.

Principal Investment Strategies: In pursuing its investment objective, the Adviser uses three strategies: (i) selecting individual equity securities, (ii) hedging to mitigate the downside risk of equities during unfavorable markets, and (iii) seeking to minimize shareholders' tax liability in connection with the Fund's distribution of realized capital gains.

Equity Instruments

The Fund seeks to provide risk-adjusted returns with lower volatility compared to global equity markets. Under normal market conditions, the Fund pursues its investment objective by investing at least 60% of its net assets in U.S. exchange listed common stock, preferred stock and depositary receipts ("Equity Instruments"). The Fund may invest in or have exposure to domestic and foreign companies of any market capitalization or sector. The Adviser primarily selects long equity positions from companies in the S&P 500 Index.

Hedging

When the Adviser believes it is warranted by unfavorable market conditions, the Adviser uses its dynamic hedging strategy model to seek to reduce the downside risks associated with the Fund's exposure to Equity Instruments. Exposure to the hedging strategy is gained through selling short exchange traded funds.

The Fund expects to be more invested in long positions than in short positions (*i.e.*, have net long exposure in equity markets). The Adviser uses the hedge strategy as an overlay to manage the Fund's net exposure.

Tax Management

To avoid Fund level taxation, the Fund is required to distribute to shareholders net income and net realized capital gains. Thus, when the Fund sells securities at a gain that is not offset, that gain must be passed along to shareholders of the Fund. The Adviser seeks to minimize shareholders' tax liability in connection with the Fund's distribution of realized capital gain by minimizing the net gains available for distribution. As part of its tax aware strategy, the Adviser seeks to sell any security that has breached a predetermined loss level. Thus, it seeks to accumulate capital losses to partially offset any realized capital gains. This strategy, commonly known as tax-loss harvesting, is combined with the equity portfolio with the objective of creating favorable after-tax returns. However, the Fund's portfolio may not contain any securities in a loss position. This strategy may include minimizing the sale of securities with large unrealized gains, holding securities long enough to avoid short-term capital gains taxes, selling securities with a higher cost basis first. If the Adviser sells long positions at a loss for tax purposes the long position may need to be replaced with a highly correlated exchange traded fund ("ETF"). Tax wash sales rules disallow recognition of a loss if a security is sold and then repurchased shortly thereafter. Once the wash sale period expires, the Adviser may sell the ETF and replace it with the previously sold security.

Principal Investment Risks: The following risks may apply to the Fund's direct investments as well the Fund's indirect investments through Underlying Funds.

- **Equity Risk:** The NAV of the Fund will fluctuate based on changes in the value of the equity securities held by the Fund or underlying funds that invest in U.S. and/or foreign equity securities. Equity prices can fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions.
- **Foreign Investment Risk:** Foreign investing (including through American Depositary Receipts, European Depositary Receipts and Global Depositary Receipts) involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards. Investing in emerging markets imposes risks different from, or greater than, risks of investing in foreign developed countries.

- *Hedging Risk:* Investing for hedging purposes or to increase the Fund's return may result in certain additional transaction costs that may reduce the Fund's performance. When used for hedging purposes, no assurance can be given that each derivative position will achieve a perfect correlation with the security against which it is being hedged.
- *Issuer-Specific Risk:* The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- *Large Cap Company Risk:* To the extent the Fund invests in large capitalization companies, the Fund may underperform a fund that invests primarily in lower quality, smaller capitalization companies during periods when such companies are in favor.
- *Management Risk:* The NAV of the Fund changes daily based on the performance of the securities and derivatives in which it invests. The Adviser's judgments about the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests (long or short) may prove to be incorrect and may not produce the desired results.
- *Market and Geopolitical Risk:* The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, climate change and climate-related events, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as terrorist attacks around the world, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. It is difficult to predict when similar events affecting the U.S. or global financial markets may occur, the effects that such events may have and the duration of those effects. Any such event(s) could have a significant adverse impact on the value and risk profile of the Fund's portfolio. The COVID-19 global pandemic and the aggressive responses taken by many governments had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your Fund investment. Therefore, the Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments. In times of severe market disruptions, you could lose your entire investment.
- *Model Risk:* Like any analysis, the Adviser's investment model carries a risk that the model used might be based on one or more incorrect assumptions. Rapidly changing and unforeseen market dynamics could also lead to a decrease in short term effectiveness of the Adviser's algorithmic model. No assurance can be given that the Fund will be successful under all or any market conditions.
- *Short Position Risk:* The Fund's long positions could decline in value at the same time that the value of the short positions increases, thereby increasing the Fund's overall potential for loss. The Fund's short positions may result in a loss if the price of the short position instruments rises and it costs more to replace the short positions. In contrast to the Fund's long positions, for which the risk of loss is typically limited to the amount invested, the potential loss on the Fund's short positions is unlimited. Market factors may prevent the Fund from closing out a short position at the most desirable time or at a favorable price.
- *Small and Medium Capitalization Company Risk:* Small or medium capitalization companies may have limited product lines, markets or financial resources, and they may be dependent on a limited management group. Securities of smaller companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.
- *Tax Aware Investing Risk:* The Adviser's tax aware strategies may reduce shareholder taxable distributions but will not likely eliminate taxes. Managing the Fund to maximize after-tax returns may also potentially have a negative effect on the Fund's performance. Because tax consequences are considered in managing the Fund, the Fund's pre-tax performance may be lower than that of a similar fund that is not tax-managed.

- **Underlying Funds Risk:** The Fund invests in investment companies, including ETFs and mutual funds (“Underlying Funds”). As a result, your cost of investing in the Fund will be higher than the cost of investing directly in investment companies and may be higher than other investment companies that invest directly in stocks and bonds. You will indirectly bear fees and expenses charged by the Underlying Funds in addition to the Fund’s direct fees and expenses. When the Fund invests in Underlying Funds that use margin, leverage, short sales and other forms of financial derivatives, such as options and futures, an investment in the Fund may be more volatile than investments in other mutual funds. Short sales are speculative investments and will cause the Fund to lose money if the value of a security sold short by the Underlying Fund in which the Fund invests, does not go down as the Underlying Fund manager expects. Additional risks of investing in investment companies are described below:
 - **Expense Risk:** The Fund invests in Underlying Funds. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in an investment company and may be higher than other mutual funds that invest directly in stocks and bonds. You will indirectly bear fees and expenses charged by the Underlying Funds in addition to the Fund’s direct fees and expenses.
 - **ETF Risk:** Exchange traded funds are subject to the following risks that do not apply to conventional mutual funds: (i) the market price of shares may trade above or below their NAV, (ii) an active trading market for shares may not develop or be maintained; or (iii) trading of shares may be halted if the listing exchange’s officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide “circuit breakers” (which are tied to large decreases in stock prices) halts stock trading generally. Additionally, only an authorized participant may engage in creation or redemption transactions directly with an ETF. To the extent authorized participants exit the business or are unable to proceed with creation or redemption orders, ETF shares may be more likely to trade at a premium or discount to NAV and possibly face trading halts or delisting.
 - **Leveraging Risk:** The use of leverage by the Underlying Funds, such as borrowing money to purchase securities, engaging in reverse repurchase agreements, lending portfolio securities and engaging in forward commitment transactions, will magnify the Underlying Fund’s gains or losses. During periods in which an Underlying Fund is utilizing financial leverage, the fees that are payable to its Adviser as a percentage of the Underlying Fund’s assets may be higher than if the Underlying Fund did not use leverage, because the fees are calculated as a percentage of the Underlying Fund’s assets, including those purchased with leverage.
 - **Management Risk:** When the Fund invests in Underlying Funds there is a risk that the investment advisers of those Underlying Funds may make investment decisions that are detrimental to the performance of the Fund.
 - **Mutual Fund Risk:** The strategy of investing in Underlying Funds that are mutual funds could affect the timing, amount and character of distributions to you and therefore may increase the amount of taxes you pay. In addition, certain prohibitions on the acquisition of mutual fund shares by the Fund may prevent the Fund from allocating its investments in the manner the Adviser considers optimal. The Fund intends to purchase mutual funds that are either no-load or waive the sales load for purchases made by the Fund. The Fund will not purchase mutual funds that charge a sales load upon redemption, but the Fund may purchase mutual funds that have an early redemption fee. In the event that a mutual fund charges a redemption fee, then you will indirectly bear the expense by investing in the Fund. Mutual funds whose shares are purchased by the Fund will be obligated to redeem shares held by the Fund only in an amount up to 1% of the mutual fund’s outstanding shares during any period of less than 30 days. Therefore, shares held by the Fund in excess of 1% of a mutual fund’s outstanding shares may be considered not readily marketable securities, which together with other such securities, may not exceed 15% of the Fund’s total assets. When the Fund focuses its investments in certain mutual funds, the Fund’s portfolio will have a risk profile for such investments that will correspond to that of such mutual funds and Management Risk, described above, increases proportionately.
 - **NAV and Market Price Risk:** The market value of the closed-end shares may differ from their NAV. This difference in price may be due to the fact that the supply and demand in the market for fund shares at any point in time is not always identical to the supply and demand in the market for the underlying basket of securities. Accordingly, there may be times when shares trades at a premium or discount to NAV.
 - **Strategies Risk:** Each Underlying Fund is subject to specific risks, depending on the nature of the fund. These risks could include liquidity risk, sector risk, and foreign currency risk, as well as risks associated with fixed income securities and commodities.

Temporary Investments: To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because shareholders will pay the fees and expenses of the Fund and, indirectly, the fees and expenses of the underlying money market funds. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Portfolio Holdings Disclosure: A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information ("SAI").

Cybersecurity

The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

Investment Adviser: Dakota Wealth Management, LLC, 11376 N. Jog Road, Palm Beach Gardens, FL 33418, serves as investment adviser to the Fund. Subject to the oversight of the Board, the Adviser is responsible for management of the Fund's investment portfolio. The Adviser was established in 2018 for the purpose of advising individuals and institutions. As of September 30, 2023, the Adviser had approximately \$3.6 billion in assets under management.

Pursuant to an investment advisory agreement with the Trust, on behalf of the Fund, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 1.25% of the Fund's average daily net assets. From January 31, 2019 through December 31, 2020 the advisory fee was 1.75%. The Adviser has contractually agreed to waive management fees and to make payments to limit Fund expenses, until February 1, 2025 so that the total annual operating expenses (excluding (i) any front-end or contingent deferred loads; (ii) brokerage fees and commissions, (iii) acquired fund fees and expenses; (iv) borrowing costs (such as interest and dividend expense on securities sold short); (v) taxes; and (vi) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser))) of the Fund do not exceed 1.99% of average daily net assets attributable to Class I shares. From January 31, 2019 through December 31, 2020, the expense limitation was at 2.49%. This fee waiver and expense reimbursement is subject to possible recoupment from the Fund within three years after the fees have been waived or reimbursed, if such recoupment can be achieved within the lesser of the foregoing expense limits or the expense limits in place at the time of recapture. This agreement may be terminated by the Board only on 60 days' written notice to the Adviser.

During the year ended September 30, 2023, the Fund paid 1.25% of its average daily net assets as an advisory fee. A discussion regarding the basis for the Board's approval of the advisory agreement is available in the Fund's Annual Report to Shareholders for the period ended September 30, 2023.

Portfolio Managers: The Fund is managed on a day-to-day basis by the portfolio manager(s) listed below. The SAI provides additional information about each portfolio manager's compensation, other accounts managed by each portfolio manager, and the portfolio manager's ownership in the Fund.

Investment Adviser	Portfolio Manager	Experience over the last 5 years
Dakota Wealth Management, LLC	Greg Horn	Portfolio Manager of the Fund since inception; Chief Development Officer, Senior Managing Director, Dakota Wealth Management, LLC, July 2021 – present. President and CEO of Persimmon Capital Management 1998 – July 2021.
	Timothy Melly	Portfolio Manager of the Fund since June 2015; Director of Investment Solutions, Dakota Wealth Management, LLC, July 2021 - present; Vice President of Research, Persimmon Capital Management, LP, 2014 – July 2021. Director of Investment Research at M Financial Planning Group from 2005 to 2014.

HOW SHARES ARE PRICED

Shares of the Fund are sold at NAV. The NAV of the Fund is determined at close of regular trading (normally 4:00 p.m. Eastern Time) on each day the New York Stock Exchange (“NYSE”) is open for business. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund’s securities are valued each day at the last quoted sales price on each security’s primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid ask prices on such exchanges. Securities primarily traded in the National Association of Securities Dealers’ Automated Quotation System (“NASDAQ”) National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the “fair value” procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different from the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has designated the Adviser as its “Valuation Designee” to execute these procedures. The Adviser may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund’s securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund. Because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of some of the Fund’s portfolio securities may change on days when you may not be able to buy or sell Fund shares.

In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund’s portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security may be priced using alternative market prices provided by a pricing service. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, alternative market prices may be used to price the security. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund’s portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund’s NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine NAV, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund’s assets that are invested in one or more open-end management investment companies registered under the Investment Company Act of 1940, as amended, the Fund’s NAV is calculated based upon the NAVs of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

HOW TO PURCHASE SHARES

Shares of the Fund are offered at the public offering price, which is NAV per share. The Fund has a minimum initial investment requirement of \$100,000 and a minimum subsequent investment requirement of \$100. The Fund and the Adviser may each waive investment minimums at their individual discretion. You may purchase shares of the Fund by sending a completed application form to the following address:

via Regular Mail
PERSIMMON LONG/SHORT FUND
c/o Ultimus Fund Solutions, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail
PERSIMMON LONG/SHORT FUND
c/o Ultimus Fund Solutions, LLC
4221 North 203rd Street, Suite 100
Elkhorn, Nebraska 68022-3474

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Distributor (as identified below under the heading "Distributor"). The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund at 1-855-233-8300 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automated Clearing House (ACH) Purchase: Current shareholders may purchase additional shares via Automated Clearing House ("ACH"). To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

You may not use ACH transactions for your initial purchase of Fund shares. ACH purchases will be effective at the closing price per share on the business day after the order is placed. The Fund may alter, modify or terminate this purchase option at any time.

Shares purchased by ACH will not be available for redemption until the transactions have cleared. Shares purchased via ACH transfer may take up to 15 days to clear.

Automatic Investment Plan: You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$100 on specified days of each month into your established Fund account. Please contact the Fund at 1-855-233-8300 for more information about the Fund's Automatic Investment Plan.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to "Persimmon Long/Short Fund." The Fund does not accept cash, drafts, "starter" checks, traveler's checks, credit card checks, post-dated checks, non-U.S. financial institution checks, cashier's checks, money orders, third party checks, or counter checks. Redemptions of shares of the Fund purchased by check may be subject to a hold period until the check has been cleared by the issuing bank. To avoid such holding periods, shares may be purchased through a broker or by wire, as described in this section.

Note: Ultimus Fund Solutions, LLC, the Fund's transfer agent (the "Transfer Agent"), will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any check or electronic payment returned to the Transfer Agent for insufficient funds.

When Order is Processed: All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before 4:00 p.m. (Eastern Time) will be processed on that same day. Requests received after 4:00 p.m. will be processed on the next business day.

Good Order: When making a purchase request, make sure your request is in good order. "Good order" means your purchase request includes:

- the name of the Fund and share class;
- the dollar amount of shares to be purchased;
- a completed purchase application or investment stub; and
- check payable to the "Persimmon Long/Short Fund."

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Fund at 1-855-233-8300 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

HOW TO REDEEM SHARES

Redeeming Shares: The Fund typically expects that it will take up to three business days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer. The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of Fund shares, any lines of credit, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions. You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

via Regular Mail
PERSIMMON LONG/SHORT FUND
c/o Ultimus Fund Solutions, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail
PERSIMMON LONG/SHORT FUND
c/o Ultimus Fund Solutions, LLC
4221 North 203rd Street, Suite 100
Elkhorn, Nebraska 68022-3474

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account.

The proceeds will be sent by mail to the address designated on your account or wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 1-855-233-8300. If you own an IRA account and wish to redeem by telephone, you will be asked whether or not the Fund should withhold federal income tax

During periods of high market activity, you may encounter higher than usual wait times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. Neither the Fund nor its Transfer Agent will be held liable if you are unable to place your trade due to high call volume.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the Transfer Agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the Transfer Agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the Transfer Agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Transfer Agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Systematic Withdrawal Plan: If your individual accounts, IRA or other qualified plan account have a current account value of at least \$10,000, you may participate in the Fund's Systematic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$100 on specified days of each month into your established bank account. Please contact the Fund at 1-855-233-8300 for more information about the Fund's Systematic Withdrawal Plan.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders by making payment in whole or in part in readily marketable securities ("redemption in kind") if the amount is greater than the lesser of \$250,000 or 1% of the Fund's assets. The securities will be chosen by the Fund and valued under the Fund's NAV procedures. A shareholder will be exposed to market risk until these securities are converted to cash and may incur transaction expenses in converting these securities to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in "good order" as described below, it will issue a check based on the next determined NAV following your redemption request. If you purchase shares using a check and soon after request a redemption, your redemption proceeds, which are payable at the next determined NAV following the receipt your redemption request in "good order", as described below, will not be sent until the check used for your purchase has cleared your bank.

Good Order: Your redemption request will be processed if it is in "good order." To be in good order, the following conditions must be satisfied:

- The request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- The request must identify your account number;
- The request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- If you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

Redemption Fee: The Fund will deduct a 1.00% redemption fee on your redemption amount if you sell your shares less than 60 days after purchase. Shares held longest will be treated as being redeemed first and shares held shortest as being redeemed last. Shares held for 60 days or more are not subject to the 1.00% fee. Redemption fees are paid to the Fund directly and are designed to offset costs associated with fluctuations in Fund asset levels and cash flow caused by short-term shareholder trading.

Waivers of Redemption Fees: The Fund has elected not to impose the redemption fee for:

- redemptions and exchanges of Fund shares acquired through the reinvestment of dividends and distributions;
- certain types of redemptions and exchanges of Fund shares owned through participant-directed retirement plans;
- redemptions or exchanges in discretionary asset allocation, fee based or wrap programs (“wrap programs”) that are initiated by the sponsor/financial adviser as part of a periodic rebalancing;
- redemptions or exchanges in a fee based or wrap program that are made as a result of a full withdrawal from the wrap program or as part of a systematic withdrawal plan;
- involuntary redemptions, such as those resulting from a shareholder’s failure to maintain a minimum investment in the Fund, or to pay shareholder fees; or
- other types of redemptions as the Adviser or the Trust may determine in special situations and approved by the Trust’s or the Adviser’s Chief Compliance Officer.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

Low Balances: If at any time your account balance in the Fund falls below \$250, the Fund may notify you that, unless the account is brought up to at least \$250 within 60 days of the notice, your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below \$250 due to a decline in NAV.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund currently uses several methods to reduce the risk of market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's Market Timing Trading Policy;
- Assessing a 1.00% redemption fee for shares sold less than 60 days after purchase;
- Rejecting or limiting specific purchase requests; and
- Rejecting purchase requests from certain investors.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

Based on the frequency of redemptions in your account, the Adviser or Transfer Agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to (i) reject or limit the amount, number, frequency or method for requesting future purchases into the Fund and/or (ii) reject or limit the amount, number, frequency or method for requesting future exchanges or redemptions out of the Fund.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase orders. The Adviser may also bar an investor who has violated these policies (and the investor's financial advisor) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund encourages financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its Transfer Agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the Adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income and net capital gains annually in December. Both distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

The Fund must report to the IRS and furnish to shareholders the cost basis information for shares purchased and sold. The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders, which means the Fund uses this method to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing NAVs, and the entire position is not sold at one time. Shareholders may, however, choose a method other than the Fund's standing method at the time of their purchase or upon sale of covered shares. Shareholders should consult their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how cost basis reporting applies to them. Shareholders also should carefully review the cost basis information provided to them by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisors to determine the tax consequences of owning the Fund's shares.

DISTRIBUTION OF SHARES

Distributor: Northern Lights Distributors, LLC, 4221 North 203rd Street, Suite 100, Elkhorn, Nebraska 68022-3474, is the distributor for the shares of the Fund (the “Distributor”). Northern Lights Distributors, LLC is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. Shares of the Fund are offered on a continuous basis.

Additional Compensation to Financial Intermediaries: The Distributor, its affiliates, and the Adviser and its affiliates may, at their own expense and out of their own assets including their legitimate profits from Fund-related activities, provide additional cash payments to financial intermediaries who sell shares of the Fund or assist in the marketing of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the Rule 12b-1 fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The Distributor may, from time to time, provide promotional incentives to certain investment firms. Such incentives may, at the Distributor’s discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional compensation.

Householding: To reduce expenses, the Fund mails only one copy of a Prospectus and each annual and semi-annual report to those addresses shared by accounts that have elected to receive paper copies of these documents. If you wish to receive individual copies of these documents, please call the Fund at 1-855-233-8300 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the past five years. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been derived from the financial statements audited by RSM US LLP whose report, along with the Fund's financial statements which are incorporated by reference into the SAI, and are included in the Fund's September 30, 2023 Annual Report, which is available at no charge upon request.

Per Share Data and Ratios for a Share of Beneficial Interest Outstanding Throughout Each Year

	Class I				
	Year Ended September 30, 2023	Year Ended September 30, 2022	Year Ended September 30, 2021	Year Ended September 30, 2020	Year Ended September 30, 2019
Net asset value, beginning of year	\$ 11.08	\$ 11.82	\$ 10.50	\$ 10.08	\$ 11.18
Income (loss) from investment operations:					
Net investment loss ⁽¹⁾	(0.05)	(0.06)	(0.08)	(0.10)	(0.13)
Net realized and unrealized gain (loss) ⁽²⁾	0.88	(0.68)	1.40	0.64	(0.63)
Total from investment operations	0.83	(0.74)	1.32	0.54	(0.76)
Less distributions from:					
Net realized gains	—	—	—	(0.12)	(0.34)
Total distributions	—	—	—	(0.12)	(0.34)
Net asset value, end of year	\$ 11.91	\$ 11.08	\$ 11.82	\$ 10.50	\$ 10.08
Total return ⁽³⁾	7.49%	(6.26)% ⁽⁸⁾	12.57% ⁽⁸⁾	5.47%	(6.72)%
Net assets, at end of year (000s)	\$ 34,697	\$ 38,218	\$ 37,378	\$ 33,275	\$ 28,549
Ratios/Supplemental Data:					
Ratio of gross expenses to average net assets before fee waiver/recapture ⁽⁴⁾⁽⁶⁾⁽⁷⁾	2.09%	1.91%	2.07%	2.44%	2.85%
Ratio of net expenses to average net assets after fee waiver/recapture ⁽⁶⁾⁽⁷⁾	2.09%	1.91%	2.15%	2.57%	2.90%
Ratio of net investment loss to average net assets before fee waiver/recapture ⁽⁵⁾⁽⁷⁾	(0.44)%	(0.47)%	(0.62)%	(0.85)%	(1.20)%
Ratio of net investment loss to average net assets after fee waiver/recapture ⁽⁵⁾⁽⁷⁾	(0.44)%	(0.47)%	(0.70)%	(0.98)%	(1.24)%
Portfolio Turnover Rate	0%	0%	6%	227%	326%

(1) Per share amounts calculated using the average shares method, which more appropriately presents the per share data for the year.

(2) Realized and unrealized gains (loss) per share in this caption are balancing amounts necessary to reconcile the change in net assets value per share for the period, and may not reconcile with aggregate gains and losses in the Statement of Operations due to timing of share transactions during the year.

(3) Total returns shown exclude the effect of applicable sales charges and redemption fees and assumes reinvestment of all distributions, if any. Total returns would have been lower absent the fee waiver.

(4) Represents the ratio of expenses to average net assets absent fee waivers and/or fees recaptured by the advisor.

(5) Recognition of net investment loss by the Fund is affected by the timing of the declaration of dividends by the underlying investment companies in which the Fund invests.

(6) Excluding interest expense and dividends on securities sold short, the following ratios would have been:

Gross expenses to average net assets	1.93%	1.82%	2.01%	2.36%	2.53%
Net expenses to average net assets	1.93%	1.82%	2.09%	2.49%	2.58%

(7) Ratio does not include the expenses of other investment companies in which the Fund invests.

(8) Includes adjustments in accordance with accounting principles generally accepted in the United States and, consequently, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset values and returns for shareholder transactions.
