3-Step Process to Establish Your Texas Tuition Promise Fund® Account

Step 1 – Choose Type:

Type I Tuition Units: \$164.12 per unit

Based on 100 units = 30 semester hours = 1 academic year at most expensive Texas public college or university.¹

Covers undergraduate resident tuition and schoolwide required fees for one 30-semester credit hour academic year at up to the most expensive 4-year Texas public college or university, excluding medical and dental institutions. Fewer than 100 units would be needed to pay for 1 academic year at an eligible Texas public college or university that is not the most expensive in the year the units are redeemed. See pages 17-34 for more information.

Type II Tuition Units: \$112.59 per unit

Based on 100 units = 30 semester hours = 1 academic year at the weighted average cost of a 4-year Texas public college or university, excluding medical and dental institutions.^{1, 2}

Covers weighted average cost of undergraduate resident tuition and schoolwide required fees for one 30-semester credit hour academic year at eligible 4-year Texas public colleges and universities in the year of the redemption. If the cost per semester hour at your beneficiary's school is higher than the weighted average cost of tuition, or if your child takes more than 30 semester hours, you will have to use more tuition units or pay the difference. See pages 17-34 for more information.

Type III Tuition Units: \$29.15 per unit

Based on 100 units = 30 semester hours = 1 academic year at the weighted average cost of 2-year Texas public colleges and universities paid by residents of the taxing jurisdiction of the 2-year public college.^{1, 2}

Covers weighted average cost of undergraduate resident tuition and schoolwide required fees for one 30-semester credit hour academic year at eligible 2-year Texas public colleges in the year of the redemption. If the cost per semester hour at your beneficiary's school is higher than the weighted average cost of tuition, or if your child takes more than 30 semester hours, or is not a resident of the school's taxing jurisdiction, you will have to use more tuition units to pay the difference. See pages 17-34 for more information.

Step 2 – Choose Payment Plan:

You must purchase at least one unit to establish an account. A \$25 application fee must be paid to enroll in the plan.

Lump Sum Plan

The Lump Sum Plan allows you to purchase a specific number of units or a specific dollar amount through a one-time payment at the sales price in effect at the time of enrollment. You must purchase at least 25 Type I or 50 Type II or 50 Type III Tuition Units.

Installment Plan

The Installment Plan allows you to purchase a specific number of units and make your payments over time by either monthly or annual payments (5 or 10 years) or extend your payment schedule until the beneficiary's projected high school graduation date.

All Installment Plan contracts are based on the sales price in effect at enrollment and payments include a 6% annual interest component.³

Pay-As-You-Go Plan

Purchase anywhere from one tuition unit to the equivalent of 600 Type I units at any frequency you choose. You do not have to decide to buy a pre-set number of tuition units. After an initial purchase of at least one (1) tuition unit, future purchases may be as little as \$15.

Tuition units are purchased at the sales price in effect at the time payment is received.

Step 3 – Choose Number of Units

(100 units = 30 semester hours = 1 academic year)

Before enrolling in the plan, you should read the Plan Description and Master Agreement available in the Enrollment Kit or on the website at TexasTuitionPromiseFund.com.

¹ If instead your beneficiary attends a Texas medical or dental institution, private Texas college or university, out-of-state college or university, apprenticeship program, or career school, the plan can be used to pay all or a portion of the tuition and schoolwide required fees. Tuition is not locked in at these schools or programs, which means Transfer Value of the plan will be used to pay tuition and schoolwide fees based on the rates at the time your beneficiary starts the school or program. Transfer Value is the lesser of (1) the costs the unit would cover at a public in-state college or (2) the original purchase price of the unit, plus or minus the Plan's net investment earnings or losses on that amount. Depending on the school, beneficiaries may be required to pay fees that are not schoolwide required fees and are not covered by the Plan, such as lab fees, advisor fees, fees related to their year or major, course specific fees, or costs associated with dropped classes.

² Weighted Average is defined in the Master Agreement and is calculated according to a formula established by Texas law. The Plan will calculate two Weighted Averages: (1) A Weighted Average cost of undergraduate resident tuition and schoolwide required fees for four-year public senior colleges and universities in Texas and (2) a Weighted Average cost of undergraduate resident in-district tuition and schoolwide required fees at two-year public institutions of higher education in Texas (public junior colleges, public state colleges and public technical institutes). Weighted Averages are essentially the average cost of undergraduate resident tuition and schoolwide required fees at these public colleges and universities in Texas (Institutions) and are calculated by (1) multiplying the average amount of the institution's undergraduate resident tuition and schoolwide required fees for an academic year consisting of 30 semester credit hours by the number of full-time equivalent undergraduate resident students at the institution; (2) adding together the products computed in (1) for each institution; and (3) dividing the sum determined in (2) by the total number of full-time equivalent undergraduate resident students at all institutions.

³ *Installment Plan Price Differential.* Installment Plan contracts will result in a higher total cost for the same number of tuition units purchased through Pay-As-You-Go or Lump Sum payment options (depending on the time value of money). The interest component in Installment Plan pricing is a rate set by the Board and is included in the Pricing Schedule.

Type I Tuition Unit Prices and Payment Options

Number of Units	Grade Level or Age of Beneficiary	Lump Sum	Monthly Installments			Number of Extended Payments	Annual Installments			Number of Extended Payments

The Texas Tuition Promise Fund® is established and maintained by the Texas Prepaid Higher Education Tuition Board. Orion Advisor Solutions, Inc. (“Orion”) is the plan manager and administrator of the plan.

Participation in the Texas Tuition Promise Fund does not guarantee admission to or graduation from any college or university. Only the named purchaser may direct redemptions, withdrawals, changes in the designated beneficiary or other contract changes.

Non-residents of Texas should consider whether their home state, or the beneficiary’s home state, offers its residents any state tax or other state benefits, such as financial aid, scholarship funds, and protection from creditors that are only available for participants in that state’s 529 plan.

A contract, including the amount contributed, and any amount applied as a benefit or paid as a refund, is not guaranteed, insured or treated as a deposit or other obligation by the state of Texas, the FDIC, the Texas Prepaid Higher Education Tuition Board, any other state or federal governmental agency or Orion or its affiliates. The Contracts have not been registered with or approved by the U.S. Securities and Exchange Commission or with any state.

Purchasers should carefully consider the risks, administrative fees, service and other charges and expenses associated with the contracts, including Plan termination and decreased transfer or refund value. Transfer Value applies to tuition redemption at medical and dental institutions, private and out-of-state colleges and universities, career schools and registered apprenticeship programs. Match the Promise Foundation scholarships can only be used at Texas public colleges and universities, and Transfer Value cannot be utilized. Transfer Value is limited to the lesser of (1) the costs the Tuition Unit would cover at a Texas public college or university or (2) the original purchase price of the Tuition Unit plus or minus the Plan’s net investment earnings or losses on that amount. The Plan Description and Master Agreement contains this and other information about the Plan and may be obtained by visiting www.texas tuition promise fund.com or calling 1-800-445-GRAD (4723), Option #5. Purchasers should read the document carefully before purchasing a contract.
